BMV PERSON QUERIES

The Ohio Bureau of Motor Vehicles (BMV) owns and maintains the Driver's License and State Identification File. This file contains data pertaining to operator licenses and state identification cards issued to Ohio residents. Information such as the resident's name, address, social security number, driving record, and emergency contact can be found in this file.

LEADS operators have the ability to query the person's data using:

- the person's name
- the person's social security number
- the person's operator license number
- the person's state identification number

Name

The message key is **DN**.

Required field is NAM and is entered last name, first name.

Additional fields are the date of birth (DOB) and COU (county of residence). LEADS and NCIC person files are also checked when the search criteria include the DOB.

A list of potential matches is returned if the entered search criteria are not an exact match to the information stored in the BMV OL File. Example:

```
DNX.OHOHP00L8.PUBLIC, JOHN:19791218#
```

The BMV returns a listing of possible matches.

```
DNX.OHOHP4000.PUBLIC, JOHN Q#
```

```
080 PUBLIC, JOHN G. DLN: SE072893 5678 SUNSHINE ST
DS.444554444 CLS: D EXPIRED 25 DOB: 09/03/1967 COLUMBUS OH 44444083
PUBLIC, JOHN Q. DLN: None 1970 W BROAD ST
DK.020469730 CLS: NOT VALID 25 DOB: 07/09/1962 COLUMBUS OH 43223
076 BLAIR, JOHN P. DLN: TM152340 431 MACREADY AVE
DS.282784906 CLS: A CANCELED 09 DOB: 02/13/1966 MONROE OH 45050
073 BLAIR, JOHN P. DLN: RT125011 865 TIMBERLAKE CT
DS.359407692 CLS: D VALID 57 DOB: 10/03/1947 DAYTON OH 45429
```

If additional matches exist, the following information will be shown at the bottom of the message:

```
TO LIST MORE DRIVERS, SUBMIT THE FOLLOWING:
DNX.OHOHP00L8.PUBLIC, JOHN:19791218#.00040.E.02
```

Return to the DN transaction and input the data, e.g., PUBLIC, JOHN:19791218#.0010.Y.01 from the response into the NAM/ field, and transmit the query again.

Social Security Number

The message key is **DS**.

Required field is SSN and is entered without the hyphens.

The requester field is available to document who is requesting the query to create a computerized audit trail.

LEADS and NCIC person files are also checked.

Operator License or State ID Number

The message key is **DL**.

Required field is OLN. This can be the driver's license number or the state ID number.

The requester field is available to document who is requesting the query to create a computerized audit trail.

LEADS and NCIC person files are also checked.

Driver Key

The message key is **DK**.

Required field is OLN Key #.

The BMV assigns a 'key' number to all persons entered into their system and not necessarily from a driver's license or identification card transaction. The DN response will show the key information as DK.99999999 (see above example of a DN response) on a name query if the person does not have an Ohio driver's license or identification card.

Although a social security number may be associated with a driver record, it has not been verified until an Ohio driver's license or identification card has been issued.

```

Emergency Contact

The BMV maintains a database to track the next of kin. This file contains emergency contact information for persons issued an Ohio driver's license, commercial driver's license, temporary permit, or state ID card if the person wants to add it. **This file is not to be used as an investigative tool. It should only be used to notify the next of kin in an emergency.**

If a DS or DL query is run on a person who has supplied this information, the message 'EMERGENCY CONTACT INFORMATION AVAILABLE' will appear at the bottom of the query response from the BMV.

Use one of the following message keys to view the contact's information. The required data field can be found on the DL, DN, or DS response.

- **ECL** Required field: OLN
- **ECK** Required field: KEY
- **ECS** Required field: SOC

The file must be queried by using the appropriate field for OLN or state ID. No emergency contact information will be returned if it is a state ID, and it is run as an OLN or vice versa.

DS response example:

```
ABSTRACT OLTEST                                DOB: 05/10/1927  AGE: 80

VEHICLE REGISTRATION QUERIES

The Ohio Bureau of Motor Vehicles (BMV) owns and maintains the Vehicle Registration File. This file contains data pertaining to vehicles registered to Ohio residents. Information such as a description of the vehicle, the vehicle identification number, the associated license plate, and the owner's personal information can be found in this file.

LEADS operators have the ability to query the vehicle registration data using:

- the license plate number
- the vehicle identification number
- the owner's social security number
- the owner's name
- the owner's tax identification number

Vehicle registrations expired after three years are not retrievable through LEADS.

License Plate Number

Message key is **RP**.

This transaction also generates additional queries to the BMV OL File, LEADS files, and NCIC files using the SSN, VIN, and LIC data from the registration record.

License (LIC)

The system will take up to 10 characters. Only the first ten digits should be entered if the license plate number exceeds 10 characters.

Plate Type (COD)

Church Bus	CB
City (non-expiring)	CI
Commercial Bus	BU
Commercial Trailer – includes semi-trailer	TL
Commercial Truck	TK
County (non-expiring)	CU
Disabled Veteran (non-expiring)	DV
Farm Truck	FM
House Vehicle or House Trailer	HV
Moped	MP
Motorcycle	MC
Motor Home	MH

Non Commercial Trailer	NC
Non Commercial Truck	NT
Passenger Car	PC
Prisoner of War	PW
Recreational Vehicle (e.g., snowmobile, all terrain)	RV
School Bus	SB
State (non-expiring)	ST
Temporary Plate	TM
Transit Bus	TB
Watercraft (boat)	WC

Requestor (REQ)

15 characters of free text can be used to record the name, unit number, or badge number of the person requesting the query, which will create a secondary audit trail for the transaction.

Example of an RP response.

```
RP.OHOHP00L8.TST0001,PC.REQ/LEADS PRGM    03/04/09 13:14

PLATE COLOR/ SUNBURST      VEH COLOR/ CHROME
END
```

Dealer Plate

Message key is **RP**.

1. Temporary tags issued by dealers are available by a query (see INQUIRY BY LICENSE PLATE NUMBER).
2. Ohio responds to NLETS RQ queries for dealer plates using the 'DL' or MD' codes.

Dealer plates are issued an expiration sticker, which matches the plate series and dealer plate number. The query for dealer plates should include all the numbers from left to right, no spaces, and no dash.

(Example: RP.002D9GK)

(Example: RP.001A1JL)

Note: *This transaction will also check LEADS and NCIC files.*

The Dealer Plate Number (DL) is required. Example: A1JL; or a specific plate number: 001A1JL.

A query of a dealer plate number will provide the information as to the ownership of the license plate *only* as dealer plates are not issued to specific vehicles.

VEHICLE IDENTIFICATION QUERIES

Message key is **RV**.

This transaction also creates additional queries to both LEADS and NCIC files using the VIN. The Vehicle Identification Number (VIN) can be up to 20 characters. Use the last 20 characters to query the database if the actual vehicle identification number is greater than 20 characters.

This transaction only returns the most recently issued registration from the BMV and does not include recently issued temporary tags by dealers. Additionally, this transaction does not confirm vehicle ownership (see VEHICLE IDENTIFICATION NUMBER INQUIRY).

Example of an RV response:

```
RV.OHOHP00L8.00001243000019384      03/04/09 13:20
TST001  2008 PC (PER//500)            EXPIRED/20080201

00001243000019384    2000 PONT ASD - UNKNOWN 4S PURCHASED 01/01/2000
TITLE/1234567890 ODOMETER/000001

ISSUED 20030904 BY AGENCY 9980 APPLICATION MX49844  OLD-LIC/TST0001
PLATE COLOR/ BICENTENNIAL  VEH COLOR/ BROWN
END
```

Vehicle Owner's Name

Message key is **RN**.

The owner's name (NAM) is required and can be input as:

- PUBLIC,JOHN (last name comma first name)
- PUBLIC,JOHN Q (last name comma first name space middle initial)
- PUBLIC,JOHN Q JR (last name comma first name space middle initial space title)

When a query is made by name, an exact match may not occur. However, the response may have retrieved some records. The system assigns values for matching last name, first name, middle initial, title, and county codes. Consonants that sound alike are given the same numeric value. Vowels which often sound alike are given no value.

County of residence (COU)

Optional field to help limit the search.

Returns the most recently issued registration from the BMV and does not include recently issued temporary tags by dealers.

Example of an RN response:

```
RN.OHOHP00L8.TEST,RECORD      08/24/04 14:06
TEST*RECORD                    VIN/12345678900000010    LIC/998ZZZ ,PC

END
```

A response can bring back a maximum of five matches. The following information will be shown at the bottom of the message if additional matches exist:

FOR ADDITIONAL RECORDS, SUBMIT THE FOLLOWING: RN.OHOHP00L5.SMITH,JOHN:-0003

Return to the RN transaction and input the data from the colon to the end (e.g., :-0003) into the continuation field and transmit the query again.

Vehicle Owner's Social Security Number

Message key is **RS**.

Social Security Number (SOC) is required.

Returns the most recently issued registration from the BMV and does not include recently issued temporary tags by dealers.

Response sample:

```

```
FOR ADDITIONAL RECORDS, SUBMIT THE FOLLOWING: RS.OHOHP00L5.SMITH,JOHN:-0003
```

Return to the RS transaction and input the data from the colon to the end (e.g., :-0003) into the continuation field and transmit the query again.

Vehicle Owner's Federal Tax Identification Number

Message key is **RF**.

Federal Tax Identification Number (TAX) is required.

Returns the most recently issued registration from the BMV and does not include recently issued temporary tags by dealers.

Title Number

Message key is **ATNUM**.

The title number (TTL) is required. Title numbers are normally eight to ten numeric digits long and are unique for each certificate of title issued. Ohio titles display the TTL on the top right of the certificate of title.

Example of an ATNUM response – motor vehicle:

Vehicle Identification Number

Message key is **ATVIN**.

The vehicle identification number (VIN) is required. This transaction also queries LEADS and NCIC for stolen entry files using the VIN.

Example of an ATVIN response:

VIN/1Z37T3S423548	MAKE/CHEVROLET	MODEL/COR	YEAR/1973
OWNER NAME STREET	CITY	STS DEF STATE	ISS-DT ZIP
TITLE-NO MILEAGE			
CURRENT*OWNER 3000 CORDERS RD	COVER CITY	A O OH	091003 43111

PREVIOUS*OWNER*A 4000 SACRAMENTO BLVD	DINA	I O OH	050198 44222
5200378695 55294			

The STS field indicates the status of the title. “A” indicates an active title where the vehicle is eligible for transfer. “I” indicates an inactive title that may not be transferred as that specific title has been invalidated due to cancellation, replacement, or the vehicle has been titled in another state/territory.

The DEF field lists the particular type of title issued:

- DUP DUPLICATE
- SVD SALVAGE DUPLICATE
- ORG ORIGINAL
- REP REPLACEMENT
- SVG SALVAGE
- SVR SALVAGE REPLACEMENT

Social Security Number

Message key is ATSSN.

The social security number (SOC) is required. This transaction also queries LEADS files using the SOC.

Example of an ATSSN response:

NAME/RECORD*TEST*A	SSN/123456789

Additional Owners

Message key is **ATADD**.

The title number (TTL) is required. Title numbers are normally eight to ten numeric digits long.

Example of an ATADD response:

```
TITLE/0100228443 STATUS/I VIN-WIN-MIN/1HD5DAM20JJ128631
TITLE-DEF/O TYPE-DEF/V VEH-YEAR/1988 VEH-MAKE/HARLEY
```

##	OWNER-NAME STREET	CITY	SSN-FEIN STATE	PERMIT# ZIP
01	PUBLIC*JOHN*Q 200 ROSEY DR.	PEBBLES	211311999 OH	45666
02	PUBLIC*JOHN*Q 40 PLACE AVE.	PEBBLES	222333999 OH	45666

Name

Message key is **ATNAM**.

The name (NAM) is required. Valid formats for NAM field:

- PUBLIC*JOHN*Q*II
- PUBLIC*JOHN*Q
- PUBLIC*JOHN

The asterisks (*) must be included in the format, as shown.

Additional fields to refine the query include:

- county number
- zip code
- city name

Example of an ATNAM response:

NAME	NO	TITLE-NO	SSN
ADDRESS	CITY	STATE	ZIP

DISABLED PARKING PERMIT PLACARDS

Message key is **RP**.

Ohio Disabled Parking Permit Placards can be queried utilizing the full numbers and letters depicted on the bottom of the placard. Each placard number is unique to the placard and also returns a driving record, if any, associated with the SOC of the placard holder.

Example of an RP response for a Disabled Parking Permit Placard:

```
RP.TSTPLC, PC.REQ/ 06/10/2020 11:08:13
TSTPLC 2020 DX (PERMANENT PLACARD) EXPIRED/20200501
TEST PLACARD GUY SOC/000111222
1970 W BROAD ST COLUMBUS OH 43223 2504 SINGLE-OWNER
```

```
ISSUED 20150501 BY AGENCY 2543 APPLICATION 1 OLD-LIC/TSTPLC
```

SEATBELT MEDICAL EXEMPTION

Seatbelt exemptions in Ohio Revised Code 4513.263 were expanded under House Bill 62. Generally, any person operating an automobile or sitting in the front seat of an automobile must wear a seatbelt. However, the seatbelt requirement does not apply to a person who has an affidavit signed by a licensed physician or chiropractor that states the person has a physical impairment, which makes use of a seatbelt impossible or impractical.

A person with a permanent, or reasonably expected to be permanent, impairment is permitted to register the affidavit with the BMV to make the information available to law enforcement through LEADS. The person is not required to have the affidavit in their possession if the affidavit is registered.

An example seatbelt exemption response from LEADS is highlighted below:

```
DL.OHOHP00L5.ZZ000113
UNI TEST OLTEST          DOB: 09/01/1958  AGE: 60
1970 W BROAD ST         SSN: 444 44 1111
COLUMBUS, OH 43223     KEY: 021495223
COUNTY: 25-FRANKLIN

** SUBJECT VOLUNTARILY PROVIDED INFORMATION REGARDING A
    COMMUNICATION DISABILITY FOR LAW ENFORCEMENT AWARENESS **
